BLUE DI MONDS

- SINCE 1991 -

About Us

Established in 1991, Blue Diamonds Jewellery Worldwide is a manufacturer and retailer of fine jewellery. The famous 'floating diamonds' setting, made the firm a pioneer in the jewellery industry. It has continued to operate in both the international and local jewellery markets and exhibit the world over in addition to serving several prominent international airlines.

Our mission is to become Sri Lanka's foremost jewellery brands exporter and promote Sri Lankan gems and craftsmanship worldwide whilst establishing ourselves as a home for unique, quality brands

From hand-drawn sketches to 3D design and finally, to the skilled hands of our experienced craftsmen, we do not compromise on our dedication to design – we always deliver on on our promise of creating fine jewellery for everyday elegance or for those special moments.

FLOATING DIAMONDS.

Patented by Blue Diamonds, our 'Floating Diamonds' or 'Carbonlokd' setting uses pure carbon with a high-end finish. This unique setting brings out the full lusters and brilliance of the smallest of diamonds. Uncovered by the usual metal prongs in other settings, this reduces the use of gold and gives rise to our famous 'floating diamonds' appearance. This setting is also available in several colours, including black, blue, green, red and pink.

Ub

RINGS
